Ref: Invitation Letter for Dr. Barroso Cavalcante

Dear Sir/Madam,

I am writing to provide my support for Dr. Eric Luis Barroso Cavalcante, with passport number FV036059, to pursue a postdoctoral visit to Universitat Politècnica de Catalunya (UPC), Barcelona, Spain.

Dr. Barroso's recent PhD thesis, entitled "A lower bound limit analysis of Reissner-Mindlin plates in bending and Stretching" fully falls into our current area of research, and may be of great value for the proposed investigation topic at UPC,

Lower bound Discontinuity Layout Optimisation

His visit is planned to start the 10th of January 2019, and last for at least 12 months since. The stability methods developed during his doctoral research will be exploited and extended to recent techniques in computational limit analysis. For this reason, I fully support Dr. Barroso's application for his visit at UPC.

Should you have any further questions, please do not hesitate to contact me.

Kind regards,
